

CALL FOR APPLICATIONS

The Institute for Marine Sciences and Limnology (ICML), in order to implement a fixed-term contract, based on article 51 of the Statute of the Academic Personnel of the National Autonomous University of Mexico (UNAM), invites those candidates who meet the eligibility criteria outlined below, to participate in the selection process for a position equivalent to **full-time Associate Professor “A”** to be hired at the **Mazatlán Academic Unit**, in the area corresponding to **“Ecology of invertebrates from the Mexican Pacific Ocean”**. This offer includes a salary of **\$25,254.40 MXN** (40% bonus according to the geographic zone, extra bonuses, and employment benefits), according to the following:

ELIGIBILITY CRITERIA

- Doctoral degree on Science or equivalent.
- Experience on biology or ecology of invertebrates from the pelagic or benthic marine ecosystems, with an emphasis on areas of minimum oxygen and its relationship to any of the following: invertebrate biodiversity, reproduction physiology and growth.
- Two years minimum of teaching and research experience in there are of specialty.
- Proved experience validated with a record of scientific publications.
- Participation in oceanographic expeditions.

TESTS

1. Submission of a research proposal with a topic on “biodiversity, physiology, reproduction and growth of invertebrates from the deep sea, continental platform and open waters in the Mexican Pacific Ocean and its relationship to areas of minimum oxygen.
2. The project will be assessed during an interview with the candidate. Maximum length of the manuscript will be 25 pages plus references, font size 12 points and line spacing of 1.5.

Those interested should submit their documentation electronically to the Academic Secretary (icmlsa@cmarl.unam.mx) of the Institute of Marine Sciences and Limnology located at Ciudad Universitaria, Mexico City, by May 12th 2023 at the latest.

DOCUMENTATION

- A letter of application addressed to Dr. Carlos Jorge Robinson Mendoza, director of the Institute of Marine Sciences and Limnology, requesting to be considered in the contest and explaining the reasons why the applicant is suitable for the position.
- *Curriculum vitae* accompanied by PDF version of the supporting documents.
- Degree or professional certification, or where appropriate, the documents that prove equivalent experience.
- Two letters of recommendation from academics vouching for the academic trajectory of the candidate.

- The research project requested in the “tests” section.

The Academic Secretary of the ICML will inform the applicants selected for an interview the date and place where the oral presentation of the project will take place.

Applications will be assessed by the corresponding Colegial Body of the Institute of Marine Sciences and Limnology. The application of the selected participant will be submitted for examination and final approval to the Judging Commission and the Technical Council for Scientific Research of the University.

Notice that this process does not constitute an Open Competition Contest for Admission in terms of the Statute of the Academic Personnel of the National Autonomous University of Mexico, therefore the decision of the Collegial Body regarding the winner of this competition will be final and not open to appeal.

“POR MI RAZA HABLARÁ EL ESPÍRITU”

Ciudad Universitaria, Mexico City, March 13th, 2023
